SMM TRADESMAN

Individually tailored to you

The SMM Tradesman is the ideal addition to fleet vehicles and can be tailored to your specific needs by being installed with all the proven features from the SMM Canopies range. The SMM Tradesman can be ordered with a custom roof rack providing load stability and other optional features. This canopy is ideal for tradies.

Combine this canopy with the 'SMM Sliding Floor' to get even more out of the canopy that was built for just that purpose – ultimate utility.

SMM SLIDING FLOOR & TUB LINER*

Combine this canopy with the purpose-built **SMM Sliding Floor**, which allows you to bring any or all of your equipment from the back of your ute into an easily accessible position. Just like our hinged side windows on our canopies, the SMM Sliding Floor allows easy access to save you time on or off the job, offering you ultimate utility. Our tub liners are easy to install and are a great way to protect and preserve your ute's tray.

**The SMM Sliding Floor and tub liner are available as options on all SMM canopies.*

The SMM Sliding Floor brings the contents of your ute to within easy reach

Cover rail gives a superior seal

SAMMITR
STEEL CANOPIES

BUILT FROM THE SAME STEEL AS YOUR VEHICLE

SMM Canopies are the only pressed steel canopies in the world that are manufactured using the same production techniques as the rest of your car.

Manufactured by Sammitr, who is also an OEM supplier of body panels to car manufacturers, our canopies are pressed from 0.8mm galvanised steel and robotically welded together for maximum strength and durability. The canopies then go through a rigorous anti-rust treatment and are colour-coded using baked painting procedures for a high-quality smooth finish.

The end result is a canopy that is built as tough and finished as well as the rest of your ute. SMM Canopies are known for their strength, durability, safety, modern styling and environmental friendliness. The tolerances from the manufacturing process gives the SMM Canopies a world-class fit to the vehicle and improve the functionality of your ute for work or play. Each canopy is thoroughly tested before the leaving the factory so you are getting the best steel canopy on the market.
